BRUMBAUGH AX KILLS TEN BILLS

Municipal Ownership Bill Vetoed By Governor.

SENATE BILLS APPROVED

Governor Continues Disapproval Of Assembly Acts—Jitney Measure In Twelve Signed—Senate Bills Approved.

Harrisburg.—Governor Brumbaugh announced his veto of ten bills and approval of a dozen others, expressing decided opinions against municipal ownership of street railways and the initiative and referendum on city ordinances.

The Governor's veto on municipal ownership came on the bill presented by Senator Charles H. Kline, of Pittsburgh, president pro tem of the Senate, and one of a series sponsored by Pittsburgh officials to change the street railway system. The Governor scathingly denounced the proposition, being even more vigorous than his action on the initiative and referendum plan for third class cities which he asserted was "a vagary in legislation."

Jitney Bill Signed. Among the bills signed was that of Senator E. W. Patton, of Philadelphia, to permit all cities to regulate jitneys. It gives all the authority necessary for enactment of ordinances.

The Governor's office announced that the two bills changing the system of prison labor in the penal institutions of Pennsylvania had been approved on June 1.

These laws were two of the series recommended by the Penal Laws Commission appointed by Governor Tener and remove limitations placed on the number of prisoners who may be employed and provide for sale of products to other institutions as well as permitting labor outside of prisons under restrictions.

Senate Bills Approved. Senate bills announced as approved were as follows:

Providing the damages caused by taking of private property for municipalities shall bear six per cent. interest from date of taking.

Providing that justices of the peace and aldermen shall deliver dockets to prothonotaries at close of their terms. The "pure lime" bill, providing for labelling and State inspection under direction of the Secretary of Agriculture, who is given an appropriation of \$4,000 for the purpose.

Amending school code providing that pupils attending high schools in districts other than their own shall be examined by county superintendents.

Amending school code regulating attendance at public schools of orphans. Amending Sheriff's Fee Act of 1901, but excluding counties affected by the Act of April 9, 1915.

Supplementing Act of 1851, by providing a method of allowing a widow's exemption where property consists of realty not readily divided.

Fixing salary of night watchman in State Library at \$1,020 per year. Repealing section of Superior Court Act regulating manner of electing Superior Court Judges when there are four or more to be elected.

Amending First Class Township Act so that commissioners shall be paid \$60 per year and may be docked for failure to attend meetings and making commissioner ineligible to any other township office.

Authorizing boroughs to redeem outstanding bonds and issue refunding bonds.

Clark Bill Dies. The Governor announced that he had vetoed the Clark Senate bill amending the initiative and referendum features of the third class city act. The Governor said in his message: "This bill requires the passage of an initiated ordinance without amendment. It prohibits careful consideration and correction during passage of an ordinance thus started. It denies the right of utilizing the results of public study and criticism. It is a vagary in legislation that will not endure. It is unworkable."

Other bills announced as vetoed were:

Tompkins Senate bill for appointment of Coroners' physicians in counties having between 150,000 and 800,000 population.

Beldeman Senate bill providing for advances on appropriations for State institutions on bonds being given. On this the Governor says: "House bill No. 1058 relating to the same subject and containing a practical and economic means of disbursing these funds has been approved. This bill is not practical. Payments made at the end of a month which is at the beginning of a quarter would under this bill be in excess of the sum in the general fund of the State Treasury."

One of the interesting things connected with the Governor's veto of the Beldeman bill providing for advances on appropriations to State institutions is the information that he has already approved House bill No. 1058, introduced by James F. Woodward, Allegheny, and providing that State funds, allotted to institutions shall be kept in banks approved by the State Revenue Commission. This bill he declares answers all purposes, but has not been announced as approved except in the veto message.

The Governor also announced these vetoes:

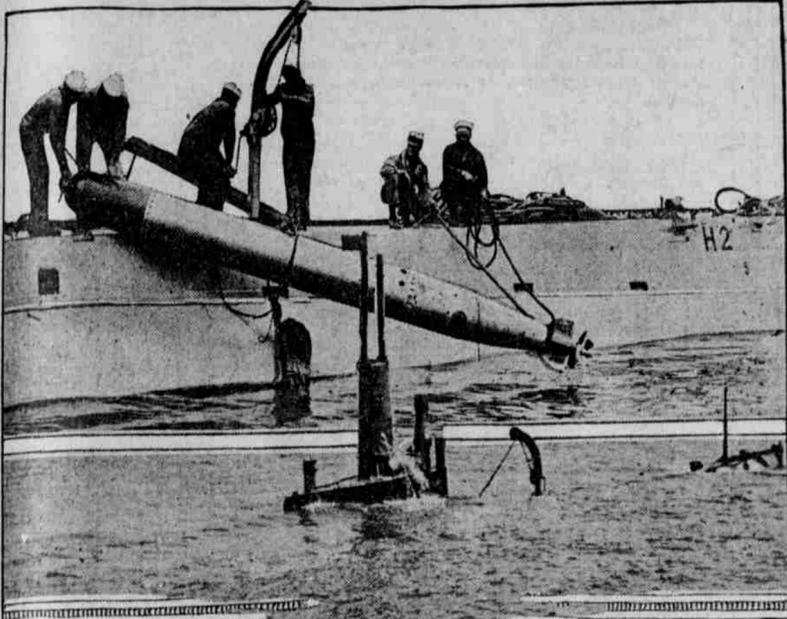

House bill authorizing Board of Public Charities to change plans and specifications for buildings, etc., of certain charitable and penal institutions.

House bill requiring that records of criminal acts of those under sixteen should be kept in a separate docket.

House bill giving school directors authority to establish open air schools, furnish free of cost food, clothing and transportation to attending pupils.

An Easy Choice.

Bishop Sanford Olmsted said at a dinner party:

"The charge that the church is governed by mercenary motives is an insidious one. I think this charge was best answered by the prison chaplain."

"A chaplain was addressing a congregation of prisoners, many of whom had given more than one proof that they were profiting by his visits. But there was a certain rough, brutal-looking fellow who always scoffed and sneered. And today this fellow, when the chaplain greeted him, said:

"No, I don't want to shake hands with you, parson. You only preach for money."

"Very good, my friend; have it so," the chaplain answered. "I preach for money. You steal for money. Let God choose between us."
